

六角支柱

一端おねじ片端めねじ/両端おねじ ねじ径長さ指定

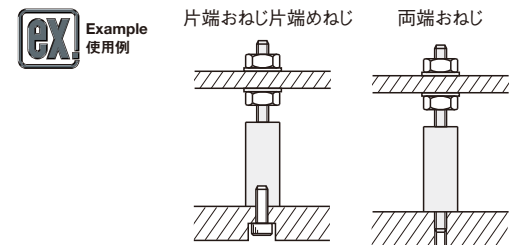

類似寸法は加工部品Cナビ http://cp.misumi.jp/10-013/ CADデータフォルダ名: 32\_Posts

Technical drawings and specifications for hexagonal posts. Includes diagrams for single-end thread, double-end thread, and length specification. Lists materials (SS400, SUS304) and surface treatments (zinc plating, nickel plating). Includes a table for dimensions L, F, G and a note about zinc plating on SS400.

Table with columns for Type, B, L, F, G, M・N選択, (C), A. Provides dimensions in 0.5mm units for various screw types and materials.

Order form section with fields for Order, Delivery, and Alteration. Includes a table for part numbers like LSBH10, PLSBP10, SLSBP30 and their corresponding dimensions.

Alterations table showing different processing options (Alterations), their corresponding codes (Code), specifications (Spec.), and prices per code (¥/1Code). Example: FC code for A dimension processing.

Price table showing quantity-based pricing (数量スライド価格) for different order quantities (1~9, 10~14, etc.) and standard prices (標準単価).

Main price table for hexagonal posts. Columns include Type, B, and length ranges (e.g., 最短L~200, 1200.5~400). Rows list various screw types (NLSBH, NLSBL, LSBH, LSBL, etc.) for SS400 and SUS304 materials with their respective prices.
