

油圧・水圧用ブロックマニホールド

-T字穴タイプ-

CADデータフォルダ名: 51_Manifolds

テーパーねじの推奨締付トルク・貫通穴情報詳細はP.1140をご確認ください。

Technical specifications for oil/water manifolds. Includes RoHS, Type selection table (Pitch P fixed vs. specified), material and surface treatment options, and detailed diagrams for various hole types (NA, ZT, YZ, YN) and their dimensions.

Main product selection table. Columns include Type (Pitch P fixed/specified), Rc (PT, NPT), Pitch P (fixed/specified), Pitch number, Q·R·S (total number of ports), and dimensions A, B, E, F, X, Y, M. Lists various model codes like BMAS, BMASR, BMGF, etc.

Ordering and pricing information. Includes instructions on how to specify options like G (material), R (surface treatment), and S (thread), and how to specify port types (NA, ZT, YZ, YN).

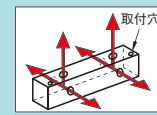

Ordering and pricing information. Includes 'Order注文例' (Ordering example) and 'Price価格' (Price) table showing volume discounts for different quantities.

Delivery and stock information. Includes 'Delivery出荷日' (Delivery date) and '在庫A/B' (Inventory A/B) details for different product types and materials.

Price table for manifolds. Columns include Pitch P (fixed/specified), Port angle (25, 40, 50, 60, 70 degrees), and Model code. Rows show prices for different quantities (1, 2, 3, 4, 5, 6, 7, 8).

エア用ブロックマニホールド

-T字穴タイプ-

テーパーねじの推奨締付トルク・貫通穴情報詳細はP.1140をご確認ください。

Technical specifications for air manifolds. Includes RoHS, Type selection table, material and surface treatment options, and detailed diagrams for various hole types (NA, ZT, YZ, YN) and their dimensions.

Main product selection table for air manifolds. Columns include Type (Pitch P fixed/specified), Rc (PT, NPT), Pitch P (fixed/specified), Pitch number, Q·R·S (total number of ports), and dimensions A, B, E, F, X, Y, M. Lists various model codes like BMGFC, BMGFCP, etc.

Ordering and pricing information. Includes instructions on how to specify options like G (material), R (surface treatment), and S (thread), and how to specify port types (NA, ZT, YZ, YN).

Ordering and pricing information. Includes 'Order注文例' (Ordering example) and 'Price価格' (Price) table showing volume discounts for different quantities.

Delivery and stock information. Includes 'Delivery出荷日' (Delivery date) and '在庫A/B' (Inventory A/B) details for different product types and materials.

Price table for air manifolds. Columns include Pitch P (fixed/specified), Port angle (20, 25, 35, 50 degrees), and Model code. Rows show prices for different quantities (1, 2, 3, 4, 5, 6, 7, 8).
